An initiative of Family Advocacy

Making the most of NDIS funding

Do you want to be in the driver's seat and utilise NDIS funding in a way that makes sense to you?

Do you want to design an individualised life in the heart of community?

Our **NDIS SELF-MANAGEMENT WORKSHOP** will cover the key components of self-managing an NDIS package. Hear from two families who have over 10 years' experience in supporting their family member with disability to self-manage their plan.

"We can employ support people from the typical community spaces where people with the same interests as my son would be pursuing those interests."

This workshop is for people with disability and families who want authentic choice and control; and current self-managers who need more information on the nuts and bolts of self-management. We encourage you to bring your current plan to the session.

Learn how to:

- develop a clear "whole of life" vision of what is possible and how it can be achieved
- recruit, hire and manage your own staff
- problem solve and deal with difficult issues in an effective way
- contemporary and innovative ways to use your funds

**Tamworth
