

My Home, My Way

MY HOME MY WAY

Orange at Ambassador Orange Hotel

Tuesday 14 May

9 AM - 4 PM AEST

In this workshop you'll learn about individualised living and the innovative ways that people with disability created their own home, while getting the support they need.

Home is a vital part of our lives. It not only gives us security, privacy, comfort and control but it reflects our identity, our adulthood and our deep sense of who we are and how we connect and belong in our neighbourhood. Yet for many people with disability 'home' is designed and controlled by others.

Individualised living is a viable alternative to group homes. Individualised living is based on a one person at a time approach to assisting a person to live and thrive in their own home.

Topics covered over the day:

- As a person with disability, what does it mean to have your own home?
- Build and hold a positive vision for home
- First steps to consider when making a unique home of your own
- Options for home and creative supports
- NDIS funding for individualised living
- Barriers, challenges and fears
- Set up for long term safety and success
- Stories and examples of people with disability living and thriving in their own home with a range of supports to meet their needs.

Who should attend?

People with disability, their families and allies

Bookings are essential

\$35 people with disability and families;
\$50 (professionals and allies).
